W. T. Professor Died Tuesday After Month Illness

MISS NORMINGTON

Memorial services for Miss Norma Lucile Normington, head of the Home Economics Department of the College, were held in the Education Building Auditorium this morning at eleven o'clock. Miss Norma died early Tuesday morning in an Amarillo hospital, following an illness of more than a month. Her sister, Miss Clara Normington, was the only member of her family present during her illness and death. Her body was taken to Iona, Michigan, the family home, for burial. Miss Ruth Cross accompanied Miss Clara Normington as faculty representative.

Miss Norma became a member of the College faculty in the fall of 1928, coming with splendid preparation for the work. She was a graduate of Michigan State College, and had been granted the Master of Science Degree by the University of Chicago in 1923. She had taught in the schools of Michigan, Illinois and the University of Arkansas.

After coming to Canyon she continued her graduate work, and she had expected to take a fifteen months leave of absence, beginning this summer, in order to complete the work for her doctor's degree.

As head of the Home Economics Department Miss Norma had been interested in the scholastic and personal development of every (Continued on last page)

Farmers To Start Study of New Program Next Friday

Meetings Will Be Held Over County to Inform Farmers of Steps Planned For Future

Meetings will be held in Randall county during the coming week in order that farmers may secure first hand information regarding the new soil program which is being put into effect. County Agent W. H. Upchurch had his Advisory Committee in session Tuesday and a program was worked out in order that all farmers of the county would be given an opportunity to secure the necessary information.

Friday night of this week a meeting will be held at the court house with an address by L. A. Hawkins of Chicago who is with the agricultural extension department of International Harvester Company.

The old AAA program aimed to control production. The new program (Continued on last page)

President Ray Nichols of the West Texas Chamber of Commerce announces that all plans are complete for the opening of the annual convention in Amarillo on May 11-13.

This will be the largest gathering of this organization for a number of years. Larger delegations are coming; more interest is being shown in the program; a larger entertainment program is planned; all insuring a much greater convention than in the past.

It is expected that a large number of Canyon people will attend the convention daily owing to the unusual interest being shown in the convention.

Wind Erosion For Randall Is Approved Attorney General

Approval of the Attorney General's office has been given for the Randall County Wind Erosion District. The transcript of the election proceedings was sent to the Attorney General by Judge Burney Slack.

The organization of the county for erosion purposes is now complete with the appointment of precinct committees.

Owing to the late start in the year, little work will be possible this year under the law creating the wind erosion district, but with the organization completed, use will be made of the power of the law this fall and winter in order to save the county from destructive erosion next spring.

Parks Board Has Ordered Increase at Palo Duro Gate

Instructions were received Sunday from Pat M. Neff, chairman of the Texas State Parks Board, to increase the entrance fee at the gate of the Palo Duro State Park. Since the Park was opened the fee has been 35 cents for a car with five people.

Starting May 1st the rate will be 35 cents for the car and driver; 20 cents for each additional adult; 10 cents for each child.

The new rate was put into effect by the insistence of the holders of the mortgage against the land, in accordance to a contract when the State Parks Board took over the Palo Duro property. Up until the present time the Board had ruled that the increased gate charge was not to be made until more conveniences had been provided. The late D. E. Colp was responsible for this interpretation of the contract.

The local advisory board was not consulted in making the advance in the gate fee, and protest has been made against this charge as being exorbitant in view of the lack of accommodations at the Park at the present time.

Those connected with the Palo Duro are expecting much difficulties in collecting the increased gate fees at the present time.

In submitting my candidacy for the State Legislature from the 123rd Legislative District, Randall, Armstrong, Potter, Deaf Smith, Oldham, and Carson Counties, I shall conduct my campaign upon the following platform:

1. I favor the establishment of a state utility commission to make possible strict regulation of all public utilities.

3. I favor immediate ratification of the child labor amendment to the Federal Constitution.

4. I favor legislation forcing every public official to file a sworn statement stating his income and where he gets it.

HALF INCH OF MOISTURE IS RECEIVED HERE

Practically All of Panhandle Gets Good Rain Sunday Afternoon and Night

BEST OF YEAR

Wheat Makes Stronger Promise After Rain, Which is First Since November

Rain amounting to .55 of an inch fell in Canyon Sunday afternoon and night. Every part of the county received moisture, but in varying amounts.

South of Canyon the rain amounted to as much as 1.5 inches in places.

West and northwest of Canyon the rain was lighter than fell in Canyon.

All of the Panhandle was covered by this rain with the exception of the northwest section in the Dalhart territory.

The rain revived prospects for wheat, and farmers are elated over the change that was made in the looks of the crop.

The rain was the largest amount received since November.

Listing is underway in all parts of the county getting ready to plant the row crop early in May. Those who have been listing on the contour have greatly benefited by this method in saving all of the moisture which fell in the rain Sunday, according to farmers who have been in town this week.

WPA Work Closed Down Owing Lack of Funds Here

WPA work in Randall county has largely been shut down this week owing to the lack of funds to carry on the projects.

It is hoped that money will be authorized so that work may be started on the campus work today.

Mayor C. R. Burrow, C. H. Jarrett, Frank Harrison and Clyde Warwick conferred with District Supervisor A. A. Meredith and Project Supervisor M. W. Kimbrough in Amarillo Thursday night regarding the local situation, and to discuss plans for the future of WPA. Mr. Meredith hopes that funds will be secured to keep the projects on the campus going until they are completed.

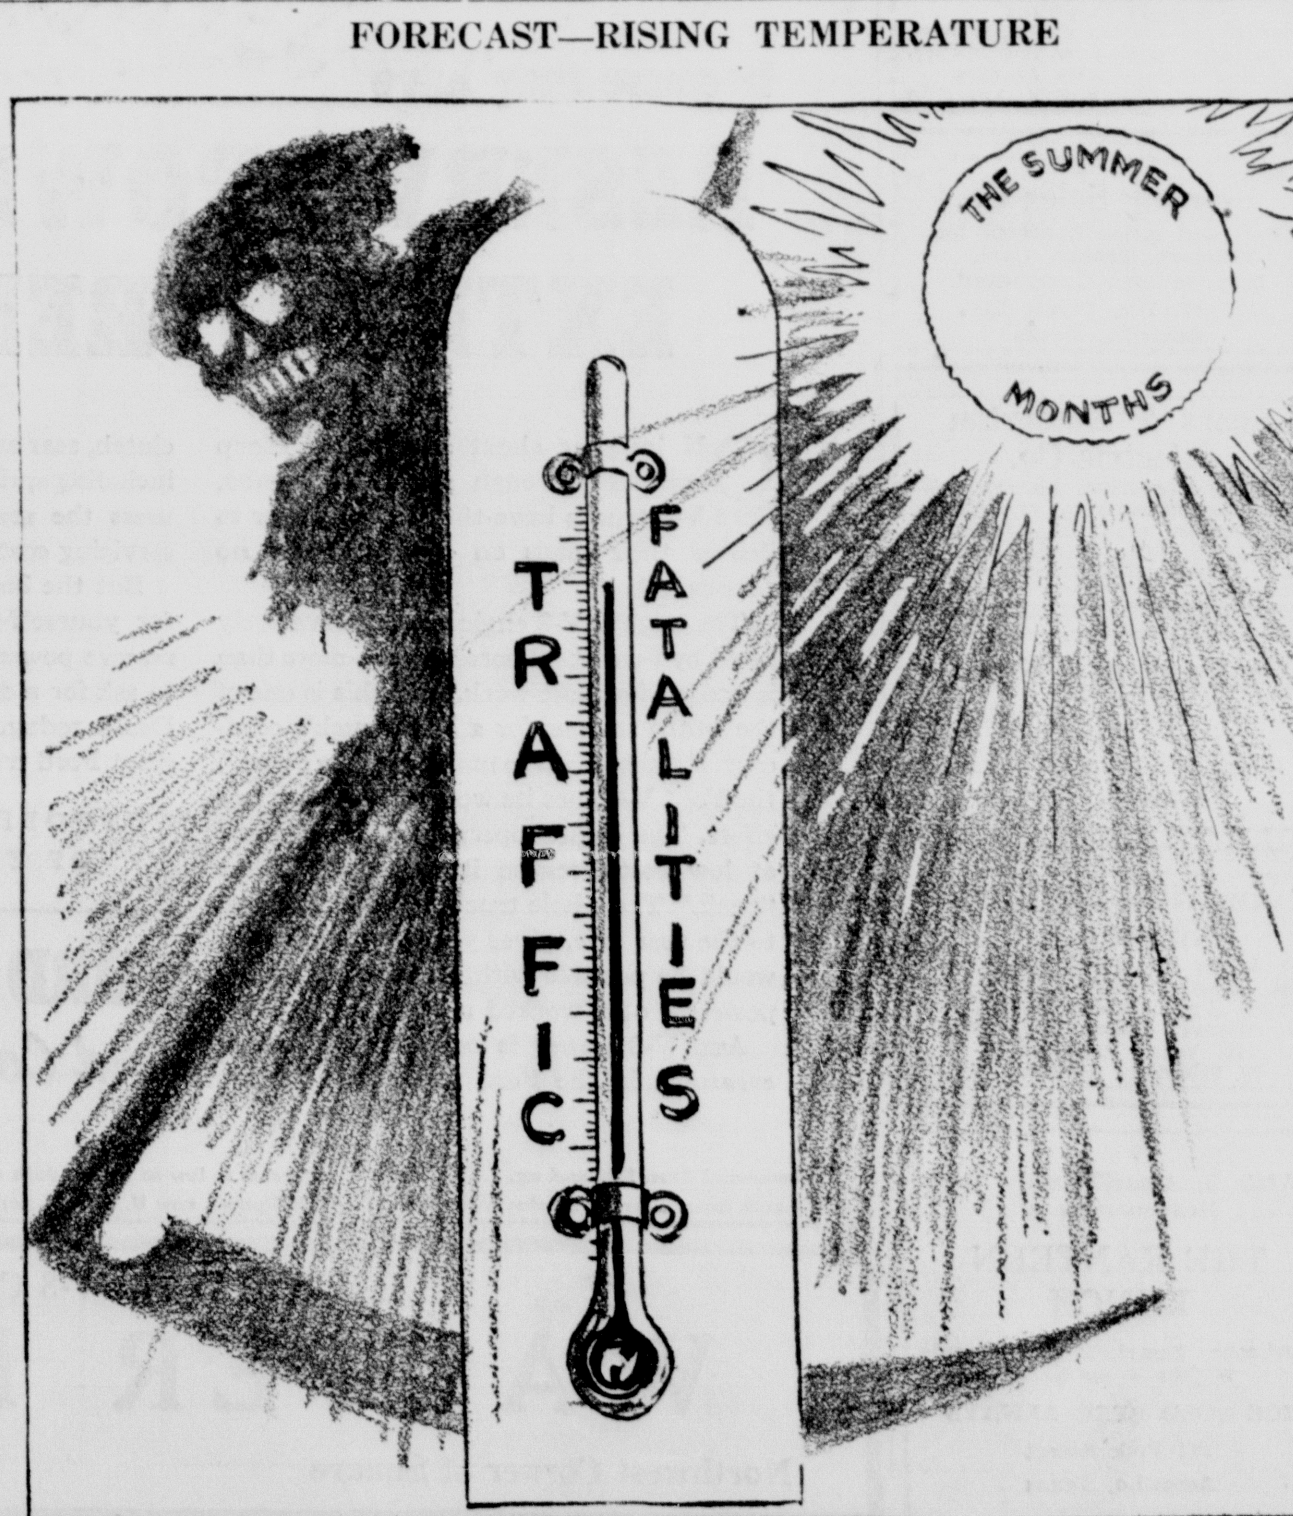

Authority is expected within a short time to start work on the widening of Fourth Avenue. This is named by both local and district authorities as being the most important project in Randall county after the campus work is completed. When this project is completed, application will be made to extend the street work in Canyon to cover several streets which are unpaved.

It is quite certain that WPA will be continued after July 1st, although nothing definite has been given out in Washington as to the future plans of this class of work. The highway department and Santa Fe have been working on a WPA project for an underpass east of the depot, but this will not be possible at the present time owing to the small number of men available for work. This will likely be taken up for the next fiscal year starting July 1st, if WPA continues.

Golf Tournament Stopped By Rain Sunday Afternoon

Play in the tournament of the Canyon Club members will start next Sunday owing to the rain which stopped the games last Sunday. Only three players succeeded in completing the 18 holes. The rain made play impossible on the sand greens for the balance of the players.

The tournament will continue for the next three Sundays, or at such times as the committee in charge pronounce the grounds in playable condition.

WILL KILL THE PARK

The people of Randall county have spent much time and money attempting to make the Palo Duro Park a success. Several thousands of dollars have been spent by the people in order to assist in building facilities which would be an attraction to the visitors who come to the Park.

Last year an advisory committee was appointed of Panhandle men in order that work might be facilitated at the Park, and that the Texas State Parks Board might have first hand and accurate reports on conditions existing at the Park, and might better determine the policies in governing the Park. These men were called upon, not only to give their time to the enterprise, but also pay all of the expenses necessary in connection with the office to which they were appointed.

When the State took over the land for the Park a contract was entered into with the lien holders. Every one who knows values knows that the lien against the land is exorbitant and far beyond the value of the land. Be that as it may, all citizens rejoiced that the Park was started and for two years had the largest CCC camp in the United States. The National Park Service is strong for the Palo Duro and pronounce it to have the greatest possibilities of any park in the Southwest.

During his lifetime, D. E. Colp ruled that the contract schedule for admission to the Park should not be changed until such a time as the Park was completed. His views were concurred in by the advisory committee.

But on the 18th of this month, without consulting the advisory committee, the State Parks Board increased the admission to the

Palo Duro to the following scale: 35c for car and driver; 20c for each additional adult; 10c for each child. This will cost the average family of husband, wife and three children 85c to enter the Park instead of 35c, the present rate.

The lien holders, through F. A. Emory, have been demanding this increase for some time, hoping to collect the unwarranted mortgage which exists on the land. Only two of the members of the State Parks Board have visited the Palo Duro, and this was several months ago. This is certainly another case in which a centralized governing group of officials away from the scene are taking the advice of one group interested in the Park, instead of looking at the interest of the public.

Shylock may have his say in regard to the admission charges, but the gate of the Palo Duro has been slammed in the face of the poor people of this section for whose benefit the Park was supposed to be built by the taxpayers money of these United States. The State is contributing practically nothing in this enterprise.

A party of 150 planned to visit the Palo Duro Park next Sunday. The admission fee would have amounted to \$17.50, but when advised that the new schedule would cost them \$42.25, they chose to go to another picnic center. It is quite evident the increased fees will cut the crowd at the Palo Duro, and that few people who have been accustomed to drive out week after week just for the pleasure of the drive will be barred from the Park.

Protests have been filed from many places in the Panhandle, by the advisory committee, and perhaps the common people may win a continuation of the present prices.

The big time newspaper publishers held a very solemn meeting, fighting for the freedom of the press. This freedom would allow the big boys like Hearst and his American Liberty League to do as they pleased regardless of propriety. This is the gang that is out to "get Roosevelt" regardless. The American press is in no danger so long as the publishers live up to the high American standards which they should follow. Those who are making the loudest howls are tools of the DuPonts and others equally as un-American.

Newspapers used to complain a few years back because of the vast amount of publicity junk which was received by commercial agencies. Today the governmental agencies are swamping the mails, because they do not have to pay postage. 99.99% of the stuff sent out by these agencies is useless to the newspapers. The government needs some real newspaper men to direct the publicity which is sent out. The stuff then might be abbreviated and improved so that some of it could be used by the newspapers.

According to a recent national poll, the people expressed the opinion that relief was now a local issue and should be handled by local people. That is well and good, if local tax money is to pay the relief bill. Most towns would attempt to see just how much funds they could secure if the federal government gave these funds to be administered by local agencies. Human nature is the same the world over—get all you can while the getting is good.

Tom Hunter dubs Governor Allred as "jauntle Jimmie." J. C. Estlack of the Clarendon Leader comes back: "at the same time we can see no point in calling forth the stumbling, grasping, feeble services of such as may be typified by three-time Tottering Tom." Any one who believes that politics will not warm up in Texas this year

has another guess coming. Each of the Governor's eight opponents will center their fire upon him, but those who have seen him in action realize that he will take them all on, singly or in bands.

Most of us like to pretend we are throwing a fit when we read of the big salaries paid executives of the big corporations. But if we had to pay an income tax of 65% like these fellows do, we would throw a louder fit. After all, being one of the common tribe has its recompense.

The Republicans see no chance of defeating Roosevelt, so will spend about four million dollars in attempting to elect Republican senators and representatives thus hoping to harass and embarrass the administration.

Now that rain has fallen is a fine time to clean up the city. The weeds will soon be growing and there is much trash which should be removed so that the weeds may be easily cut.

The big tax bill in congress seems to be largely a game of "tag, you're it." Each member of congress is quite interested in seeing that the other fellow gets taxed, while his constituent escapes.

FORD V-8 TRUCKS DO MORE WORK AT LESS COST...

because they have

RESERVE POWER AND
EXTRA STRENGTH!

ON long or short hauls—up steep grades—through gravel or gumbo, Ford V-8 trucks have the reserve power to deliver their loads on schedule and no favors asked.

The mighty V-8 engine is conservatively rated by Ford at 80 horsepower—more than is needed for most work. And this is one of the main reasons for a Ford truck's economy. Because, with so much reserve power, the Ford V-8 does its work easier, with less effort. The engine operates efficiently and at low cost because it is usually below "peak." The whole truck, straight through to the rear axle, gives you longer life than would be possible with a relatively underpowered, over-worked unit.

And V-8 power is coupled with extra strength in the Ford truck... Frame,

clutch, rear axle—in fact, the whole chassis, including springs, is ruggedly built to insure users the greatest possible freedom from servicing cost.

But the best way of all for you to learn for yourself exactly what a Ford V-8's reserve power and extra strength means, is to ask for a demonstration. Call your Ford Dealer today. Put it up to him to prove this great Ford truck's advantages to you.

Benj. Cain of Cain's Truck Lines, Oklahoma City, Oklahoma, says: "The first trip to Franklin, Pa., and return with a 12,000 lb. load of oil well drilling equipment more than substantiated your claims and now I am telling you the Ford truck is making me more money than I ever expected to make in the trucking business."

M. C. Rogers of Enid, Oklahoma, says: "The regular load on my Ford V-8 truck consists of a 2,500 gallon semi-trailer gasoline tank. Operating cost has been very low. Total expense for repairs at 40,000 miles was \$15.60 and gasoline mileage an average of nine miles to the gallon."

O. E. Mullman of Mullman Bros., Oklahoma City, Oklahoma, says: "These are two of my five Ford delivery cars which I am at the present using. They are very economical as to gas and oil consumption and I might add that the last car traded in ran 62,000 miles with absolutely no repairs being made."

L. D. Shannon, owner of the Shannon Feed Co., Tulsa, Okla., says: "We operate seven Ford trucks and I want to say they are most satisfactory in every way. We previously operated heavier and more costly units but are planning to replace them as quickly as possible with Fords as they are doing the job better and more economically."

A. D. Stoddard, Chief Engineer of the Halliburton Oil Well Cementing Co., says: "For a number of years our company has been using Ford cars and pickups as standard equipment for employees engaged in the cementing of wells."

"We have found that the block exchange by the Ford Motor Company and also the purchase of replacement engines is an aid in giving the service we desire. We are able to replace motor, front and rear ends, and various parts with very little delay and feel that all of this has been a great aid."

CENTENNIAL IGNORANCE?

In the recent visit of the Dallas
Boosters in Canyon, they closed
their program with "The Eyes of
Texas," which the announcer stat-
ed was the state song. He was
mistaken, the Texas State Song is
"Texas, Our Texas," and we hope
the Dallas Boosters along with
every true Texan will become fa-
miliar with our song and thrill to
the sound of it or be able to join
in singing the words when occasion
arises.

Though the story of the Alamo
and San Jacinto are known
throughout the country, many
Texans are not familiar with the
state song, "Texas, Our Texas." With the many Centennial activi-
ties of the coming months, every
Texan should at least know the
words to our state anthem.

The popularity of "The Eyes of
Texas," brought many people to
believe it was the state song, when
in reality it is the song of the
University of Texas.

"Texas, Our Texas," has proved
the choice of the state. The words
are a joint production of William
J. Marsh of Ft. Worth, and Gladys
Yokum who now lives in St.
Louis, Missouri. Mr. Marsh com-
posed the music.

With the adoption of the Blue-
bonnet as the official state flower
in 1904, Texas Governors had con-
stantly been trying to select a
state song, but a song was not
selected until May, 1929.

"Texas, Our Texas" has received
many honors. The famous Marine
Band played it at Roosevelt's in-
auguration. The noted Sousa's
Band has played it, and he rank-
ed it as the finest state song.

Let every true Texan learn the
words of it, which follow:

Texas, 'our Texas! So wonderful,
so great!
Largest and grandest, withstanding
ev'ry test;

O Empire, wide and glorious, you
stand supremely blest,
Chorus:
God bless you, Texas! And keep
you brave and strong,
That you may grow in pow'r and
warmth

ister at the convention Friday
morning at the Union Building.

troduced after which three talks

sity Commons.

erage and Assignments," "Circula-
tions Problems," "Advertising Prob-
lems," "Editorial Problems and Pro-
jects," and "Problems of the Mim-

Activity Afternoon
Affords Pleasure

Last Friday afternoon, Canyon
High School witnessed an unusual
event. Classes were dismissed for
an Activity Afternoon. Games
which were played were baseball
and football. The Junior girls de-
feated the Freshmen girls 33 to 14,
and the sophomore girls were vic-
torious over the seniors by a score
of 9 to 2.

The boys were divided into six
teams. Four teams played soft-
ball and two played regulation
baseball, refereed by Coach C. C.
Jones.

At 3 o'clock the students went to
the Buffalo Stadium to see a grid
conflict between next year's team
and the next year's ineligible.
Neither team was able to score
throughout the entire game. The
first quarter was played with no
penetrations of the twenty-yard
zone, but the next year's team
managed to penetrate in the sec-
ond and third quarters. The Exes
were held to no penetrations until
late in the game when Boots
Johnson and Jack Taylor, ex-Eagle
stars, plunged to the Eagles' five
yard line.

After seeing his team in full
sway, Coach Jones said, "Next
year's team has prospects for a
good year."

The White Deer Band under the
direction of Mr. M. A. Armstrong
gave a band concert Tuesday af-
ternoon for the high school as-
sembly.

There were 40 members in their
band. They also played at the
college Tuesday morning.

Throughout the ages long.

Texas, Our Texas! Your free-born
Single Star
Sends out its radiance—to nations
near and far.

Emblems of Freedom! It sets our
hearts a glow,
With tho'ts of San Jacinto—and
glorious Alamo.

Texas, O Texas! From tyrant grip
and free;
Shines forth in splendor, your star
of Destiny!

Mothers of Heroes! We come, your
children true,
Proclaiming our allegiance,
Our Faith, our Love for you.

Press Club Visits
Sat. In Publishing
Houses of Amarillo

Leaving Canyon in the school-
bus at 10 o'clock Saturday morning,
the members of the Press Club
arrived in Amarillo at 10:30 where
they visited McCormick Engraving
Company, Russell Stationery Com-
pany, and the Globe-News.

At McCormick's the students
were shown through the plant by
Mr. McCormick, who told them the
principles of photo-engraving, com-
mercial art, commercial photo-
graphs, and the enlargement and
reduction of the size of photo-
graphs.

The process of enlargement of
the actual photographs or of re-
duction of them was shown the
group from the time when the
negative was first exposed until it
was a finished picture. The
etching of the photograph on a
zinc or copper plate was also ex-
plained.

Air Brush Correction

Air-brush correction of photo-
graphs was also demonstrated. In
this process the things that are
not wanted are covered up with a
tiny brush that sprays a fluid over
the part that is not wanted in the
picture.

Mr. McCormick gave the group
an envelope containing post cards
and advertisements.

Scrambling in the school bus the
students were taken to Elwood
Park where they had their lunch.

Visits Russell Stationery

At 1 p. m. the group again load-
ed into the school bus and were
taken to Russell's Stationery where
one of the newest photographing
machines was explained to them.
Books were being bound and school
annuals made. Mr. Russell dic-
tated a letter over his dictaphone
so the machine could be seen in
operation.

At 4:30 the group assembled on
the top floor of the News-Globe
building. Mr. Bill Wilson was the
guide. The Associated Press news
coming in was the first thing wit-
nessed by the group.

Following Mr. Wilson the group
witnessed the distribution room,
where the funny papers were being
inserted by hand into the folded
Sunday Globe and bundled together
for distribution, and the press
room where the papers were being
run off of the roller presses and
carried on a moving belt to the
distribution room.

Viewed Linotypes

The group then went to the
room where the linotype machines
were being run and the type was
being set up.

Curious to see how the sports,
society, and news editors wrote
their articles, the group went from
one desk to another. They also
met Miss Louise Evans, society ed-
itor, Mr. Jerry Malin, sports ed-
itor, and Mr. T. E. Johnson, man-
aging editor of the Amarillo News-
Globe.

The last thing seen was the ad-
vertising department, with its com-
mercial articles, and the want ad
section, where a girl at each desk
was busy with calls sending in
advertisements.

Press Club Sums
Up Its Expenses

How much money has the Press
Club spent on the Eagle's Tale to
give its readers a better paper?

During the last 8½ months the
Press Club has spent approximately
\$25 to make The Eagle's Tale an
attractive page in The Canyon
News, and reach the standards of
other high school papers.

The Press Club does not receive
an appropriation from the school;
therefore, the members of the staff
must make their own money to
buy materials such as scissors, glue,
typing paper, paperclips, and
thumbtacks.

The Press Club also furnishes en-
graved photographs for The Eagle's
Tale which cost between \$2.50 and
\$3.50. Engraved cuts of Wesley

Seniors Choose
Comedy, "Guess
Again," For Play

"Guess Again," a three-act com-
edy by Glenn Hughes, was chosen
as the Senior Play, April 20.

The cast consists of 14 players.
Business at Edgewater Inn is prac-
tically non-existent. If it were not
for Mrs. Skinner, Dora Mae, her
rather fresh daughter, and Olive
Ordway, a health faddist, it would
be non-existent. Even at that,
Mr. Grimes, the worried proprietor,
is in constant fear that these
guests will default on their pay-
ments, and that S. H. ("Soak 'em
Hard") Pratt, the local banker,
who holds a mortgage on the place
will take it over. Other characters
not mentioned above are Janet
Moore, a college girl working at
Edgewater Inn; and Bill Douglas,
a college boy in love with Janet.

Waldo, the porter at the Inn, is
more of a nuisance than a porter.
He thinks he would be a good
actor and practices portraying
characters, Englishmen, Chinese,
and even fish peddlers. However
the people at the Inn do not ap-
preciate his talent.

The play will be directed by
Miss Lois Goodrich, senior spon-
sor, and Coach Cleveland Jones.

Juniors Will Give
Play at 8 O'clock
Next Thurs. Night

The junior play, "So We'll Just
Pretend," is to be given next
Thursday night at 8 o'clock, in the
High School Auditorium. A cast
of 17 characters will act the parts
of collegiates, co-eds, college of-
ficials, government men, and negroes
in an exciting dramatization of a
true to life story. The three-act
comedy involves love scenes and
serious affairs besides comedy acts.

Mavis Harden, Melvin Callihan,
Willard Childers, Mary Collins,
Billy Greenfield, Mary Catherine
Wirt, Carolyn Mayfield, Hazel Ben-
ton, Sherman Higdon, C. L. Drum-
mond, R. E. Prichard, J. C. Bellah,
John B. Pope III, Dell Bagley,
Jack Middleton, Marielle Oldham,
and Jack Inman are the characters
who make this an outstanding
feature of the year.

Admission fees are 10 cents for
children and 20 cents for adults;
the proceeds are to benefit the
Junior-Senior Banquet.

If you want to enjoy the hit of
the year, don't miss the junior play.

Seniors Set May 8
For Carlsbad Trip

The Senior Class of Canyon High
School is planning to start its
journey to Carlsbad Cavern, May
8. All 29 of the seniors are plan-
ning to make the trip.

Last year's senior class was the
first class of this school to visit
the cave. Every member was
highly pleased, according to Miss
Grace M. Clark, the sponsor of
last year's trip.

Miss Clark said, "There are no
main points of interest on the
whole trip. No part can be rated
more interesting than another;
however, the most valuable visits
were at the museum at White City,
and the Cavern itself.

"It is almost unbelievable," con-
tinued Miss Clark, "that we could
see several feet below and above
us as we passed from room to
room, and when we got into the
largest room of the cave the lights
went out in that room, then in
the next, and the next, until it
faded to the entrance of the cave,
then returned in the same manner,
while the reflections of the walls
revealed the beauty of the cave.

"It is the most wonderful thing
there is, and I am sure the new
seniors will enjoy it, too," conclud-
ed Miss Clark.

Freshmen English
Classes See "The
Lady of the Lake"

Scott's "The Lady of the Lake"
was shown in colored slides to the
two Freshmen English Classes last
Monday afternoon by Mr. S. B.
Orton as a culminating activity to
their study of the poem.

The slides were sent from the
State University.

Twenty-six slides were shown,
each depicting a certain part in
the story. A selection from the
poem was read describing the
event that the slide portrayed. The
entire story was shown and read.

Miss Jewel Foster, teacher of one
of the classes, said, "These colored
pictures made the poem more real
and interesting."

GUESS WHO

He is a football player;
And a senior boy, too;
He has beautiful eyelashes.
Girls, you'll know who.

He is short and heavy set
The ladies he does shun;
He has dark hair and blue eyes
And really loves good fun.

Who, Billy Sternberg.

The next year's team of the
Eagles has one of the least weight
averages of any Eagle team in
years. The team averages only
146 pounds to the man. But what
they lack in weight they have
made up in hustle and hard work.
Prospects for a winning team next
year are good.

Boxing and wrestling should be
developed more thoroughly in C.
H. S. Mr. Gerald Brown is an
experienced boxer and could give
the boys much help and advice.
We should have a boxing and
wrestling squad working regularly
next year.

The girls' spring basketball squad
is advancing rapidly. Coach Brown
has seven lettermen to build his
team around. The team is faster
and co-operates much better than
the last year's team. We expect a
winning team next year.

The half-day of play last Friday
was a new method devised to get
all the students in high school in-
terested in physical education.
Nearly every boy and girl partici-
pated in some form of activity.

The game between the exes and
the next year's team shows how
much work and hustle will make
up for lack of weight in a team.
The next year's team displayed
plenty of what it takes to win
football games. Captain Middleton
is sure a "hoss" on his end as-
signment. Ray Ford Rusk is one
of the best all-round backs Canyon
High School has had for many a
year.

terest were the wealthier residen-
tial districts, parks, Junior college,
high schools, and ward schools.

ming pool, as it was a very hot
day; so those who wished could
go swimming. After the drive and
swim, a chuck wagon supper was
served in the city park.

Friday morning the contests were
resumed. Friday afternoon the
group went to the city hall to see
the one-act plays on the subject,

Precinct, County Conventions Will Come This Week

Precinct conventions will be held in every precinct of the state of Texas next Saturday afternoon at 2:30 o'clock.

At that time delegates will be named from the precincts to attend the county conventions next Tuesday.

Tuesday's convention will select delegates to the state convention on May 26th, at which time state delegates will be selected for the national convention to be held next month in Philadelphia.

The conventions this year are expected to be very tame affairs. Texas is expected to send an instructed delegation to the national convention in favor of the re-nomination of Roosevelt and Garner.

The precinct conventions in Randall county Saturday are called upon to name delegates who will gather at the court house next Tuesday at 2:30 o'clock. At this time it is expected that a resolution endorsing the present administration will be passed, and the delegates to the state convention instructed to support Roosevelt and Garner.

A few months ago a threat was made in parts of the state to start opposition to the present administration, but this has subsided.

A number of important political days come next month. June 1st will be the final date for filing for district and state offices; June 13 the final date for filing for county and precinct offices.

Miss Hazel Brown, who has been visiting with her aunt, Mrs. M. E. Collier, left today for Silverton for a visit with her sister, Mrs. D. R. Blackberry.

girl in the department and in the college. The local chapter of Kappa Omicron Phi, honorary fraternity for Home Economics majors, was organized under her leadership, and she was constantly interested in the Home Economics Club, through which the girls received social and professional training. She was a member of the faculty committee on Student Welfare.

Miss Normington's professional interests were indicated by her membership in the Texas Home Economics Association, the American Home Economics Association, the Texas State Teachers Association, the National Education Association, and the American Association of University Women.

She was a member of the First Baptist Church of Ionia, Michigan. Dr. R. P. Jarrett, Dean of the College, presided at the Memorial service today. It was opened with a violin solo by Mr. Herschel Coffey; Miss Helen Edwards, a senior Home Economics major, gave "A Student's Tribute"; Miss Elizabeth Cox, "My Colleague"; Miss Darthula Walker, "My Friend." Mr. Wallace R. Clark sang "O Rest in the Lord," and President J. A. Hill then gave a short talk, "Marion Normington, the Teacher." The service was closed with a prayer by Miss Mary E. Hudspeth.

Meetings

gram aims to control erosion.

Each of the old programs dealt with one particular commodity or crop. The new program is concerned with the entire cropping system of each farm. Farmers who qualify for government grants under the new program may shift as much as fifteen percent of the base acreage of wheat or feed crops to conserving crops or approved soil conserving practices and may receive a benefit payment on the acreage so diverted.

Soil conserving payments will be granted to help recompense farmers

for the sacrifice involved in giving up a part of their soil depleting cash crops.

One of the principal objects of the new program in this section of Texas will be the prevention of wind erosion. This will be done by making additional payments for contouring, terracing, and such other soil conservation practices as will tend to protect the soil by better conserving the rainfall.

All of the rules and regulations for the administration of the new program have not been worked out. However, enough is known to allow farmers to go ahead and file a work sheet and thus become eligible for a grant later on if they decide to comply with the provisions of the soil conservation program.

Meetings to discuss the new farm program and elect committeemen will be held according to the following schedule:

No. 1—Monday, May 4, 2:30 p. m., Sunny Hill.

No. 2—Tuesday, May 5, 2:30 p. m., Ralph.

No. 3—Wednesday, May 6, 2:30 p. m., Jowell.

No. 4—Monday, May 4, 8:00 p. m., Umbarger.

No. 5—Tuesday, May 5, 8:00 p. m., Canyon.

No. 6—Thursday, May 7, 2:30 p. m., Stone.

No. 7—Wednesday, May 6, 8:00 p. m., Park.
